

Our Mission

For God's precious children, Discovery Christian Montessori offers quality education by true Montessori methods and through the love of Jesus Christ.

The early childhood years are referred to as the period of the "absorbent mind." Therefore, it is essential to help children develop a Godly character with habits, skills, and attitudes that will lead to a lifetime of living and learning.

Children have a deep sense of wonder created by God, and it is here that we begin our studies with them in the areas of language, science, mathematics, geography, music, art, and everyday living.

It is our mission to share the gospel in every way we can. We celebrate and learn about God's love through daily worship and monthly school-wide chapel services.

At DCM, we provide a program that meets each child's individual social, emotional, physical, intellectual, and spiritual needs.

Discovery Christian Montessori

We give young children the tools to become great in their generation.

discover a love for learning

**At Discovery CM,
we believe that each child
deserves a loving,
enriching, and nurturing
environment to learn, grow,
and flourish.**

Multi-Age Classes

INFANT & TODDLER (6 MO - 2 YEARS)

For our youngest little ones, we believe on building a strong foundation of love, trust, and care as we prepare the children for their coming learning years.

STEPPING STONE (2-3.5 YEARS)

Our Stepping Stone classroom prepares our young scholars for the wonderful world of a Montessori classroom. The main focus of our Stepping Stone class is to fulfill the children's deep and innate desires of order, concentration, coordination, and independence.

PRIMARY (3-6 YEARS)

Our Primary classrooms includes a Kindergarten curriculum and explores the full depths of Montessori education. The curricular areas covered span everything from Practical Life work, Sensorial work to help develop a strong sense of spatial perception, and individually focused areas of Math, Language, Science, History-Geography, and more.

LOWER ELEMENTARY (6-9 YEARS)

Our oldest classes promote a thriving, rich-learning environment. At DCM, children in our LE classes typically excel, with 80% performing at 1-2 grade levels* above their age group by mid or end of the year in comparison to their peers in the public school setting. Children not only learn the foundation of all academic concepts, but they are encouraged to be active life-long learners.
